

Configured MI Wiring Unit

nVent PYROTENAX mineral insulated (MI) wiring units offer superior fire resistance under hydrocarbon and cellulosic fire conditions. Rated for hazardous and non hazardous environments. The technology is recognized for the ability to prevent migration of gas through the cable to potential ignition sources which can cause explosions. Suitable for applications with high continuous exposures detrimental to polymeric cable insulation materials. Factory terminated units providing enhanced reliability in critical applications.

RECURSOS

Wiring cable units for critical circuits and life safety applications

Factory terminations enabling increased productivity for field labour

Fast installation: factory-terminated and fully tested, eliminating field termination and risk of rework

Reliable during long life: 30 year product warranty available

Various cable families affording different fire protection levels

Configured wiring units tailored to application demands

Approved for hazardous locations

ESPECIFICAÇÕES

Table 1/1

Número do catálogo	Voltage Rating	Tamanho do condutor	Conductor Material	Insulation Material	Sheath Material	Hazardous Area Approved
PCU	0 – 600 V	16 - 500 kcmil (1 - 250 mm ²)	Copper, Nickel or Nickel Clad Copper	Magnesium Oxide	Alloy 825, Copper	Sim

AVISO

Os produtos nVent devem ser instalados e utilizados apenas conforme indicado nas fichas de instrução do produto e materiais de treinamento da nVent. As fichas de instrução estão disponíveis em www.nVent.com e com nossos representantes de atendimento ao cliente nVent. A instalação inadequada, uso incorreto, aplicação incorreta ou outra falha qualquer em seguir completamente as instruções e avisos da nVent podem levar ao mau funcionamento do produto, danos à propriedade, lesões corporais graves e morte, e/ou anular sua garantia.
