

# nVent LENTON Speed Sleeve Coupler

The nVent LENTON Speed Sleeve splice is a proven, quick and economical method of making compression-only splices in steel reinforced concrete projects. The system is designed to allow compressive loads to be transferred by aligning square cut reinforcing steel bar ends.

nVent LENTON Speed Sleeve is simple and easy to install. The small dimensions of the sleeve generally eliminate the need for additional concrete cover on the reinforcing steel because the sleeve is typically thinner than the column stirrups.

# **FEATURES**

Bars can be individually secured

Fast, one-man installation

Requires only a lightweight ratchet wrench to install

Can be used on bundled bars

Self supporting; no tack welding is needed

Transition splices can be made using simple adaptor inserts

## **SPECIFICATIONS**

Finish: Electrogalvanized

Material: Сталь

## ADDITIONAL PRODUCT DETAILS

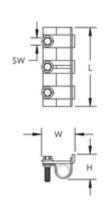

nVent LENTON Speed Sleeve is a compression-only splicing system. It should never be used for tension applications.

Coupler sizes not shown may be available by special order. Contact your nVent LENTON representative for more information.

Prior to installation, please read and understand all of the detailed instructions and safety notices provided in the installation instructions.
