Appendix	12

VARIETY OF FRONT AND REAR OPTIONS

- Three different front and rear options embedded into the frame design, to provide a high level of protection and usability.

Version with Trim

Version with Trim, Circulating

Version with Handle

RatiopacPRO Style

Designed for insertion/extractor handles in accordance with IEC 60297-3-102 and IEEE 1101.10 for CompactPCI and VME64x applications

In addition to the front screwed front panels, also pre-configured version for a screwless front panels versions are offered for a clean case design.

Standard Version:

Screwless Version:

STANDARDS

- Inner dimensions in accordance with:
IEC 60297-3-101 / IEEE 1101.1
IEC 60297-3-102 / IEEE 1101.10/11
- For board depth 160 mm, 220 mm, 280 mm, and 340 mm
- Type of protection IP30 (with front- and rear panel)
in accordance with IEC 60529
- Earthing connections in accordance with:
DIN EN 50178 / VDE 0160
DIN EN 62368-1 / VDE 0805
DIN EN 61010-1 / VDE 0411 part 1
- EMC testing in accordance with VG 95373 part 15

Desk-top cases – RatiopacPRO Style

OVERVIEW

THE STYLISH CASE TO PROVIDE MAXIMUM FLEXIBILITY

- Desktop case with protective frame design and rubber strips
- Leverage proven platform to streamline the design process and minimize risks and delays.
- Achieve distinctive aesthetics through features like protective elements and stackability.
- Case for 19" components (guide rails) or proprietary components (mounting plate).
- For EMC-shielding, additional components need to be added, please refer to page 5.159
- No visible screws; cladding parts removable without tools

RatiopacPRO Style - Front and Rear Trims / Top & Bottom Rubber Strip

- Trim frame design on front and rear of desktop case for protection of connectors, jacks or plugs, when equipment is positioned vertically.
- Removeable rubber strip bottom and top of desktop case for extra protection of case and integrated stacking function

RatiopacPRO Style - Front and Rear Trims / Circulated Rubber Strip

- Trim frame design on front and rear of desktop case for protection of connectors, jacks or plugs, when equipment is positioned vertically.
- Non-Removeable rubber strip all around the case to protect all corners, ideal for smaller mobile cases

RatiopacPRO Style - Front Handle and Rear Trims / Top & Bottom Rubber Strip

- Front handle frame design on front to easy carry desktop cases, ideal for larger equipment
- Trim frame design on rear to protect rear connectors, jacks or plugs
- Removeable rubber strip bottom and top of desktop case for extra protection of case and integrated stacking function

Accessories

All accessories are compliant with RatiopacPRO Style, RatiopacPRO and RatiopacPRO Air

SERVICEPLUS

- e.g. modifications (cut-outs, special colours)
- e.g. custom solutions (special sizes)
- e.g. assembly service from 1 piece

RatiopacPRO Style Case

Standard Version:

Screwless Version:

Delivery Comprise

Version with Trims front and rear side

- Desktop case with protective frame design and rubber strips on the top and bottom for a secure stand and with integrated stacking function
- Case for 19" components (guide rails) or proprietary components (mounting plate).
- To establish EMC-shielding, additional components need to be added out of page 5.159 to the enclosure.
- Available in two versions:
Standard (1) - Front and rear side prepared for front panel mounting with collar screws and sleeves.
Screwless (2) - Front side for front panel mounting without screws and rear side prepared for standard front panel mounting.

RatiopacPRO Platform Accessories

EMC-SHIELDING & EARTHING

By adding following components to the RatiopacPRO Style case, a superior RF-shielding can be established:

- EMC sealing front/ rear panel to side panel, page 5.159
- EMC sealing side panel to cover plate, page 5.159
- Front and rear panels with EMC sealing, page 5.160 to 5.163

AIR-COOLING ACCESSORIES

Air Baffles and Air Filters:

- Air Filter, page 5.164
- Air Baffles, page 5.164

CARD CAGE MECHANICS

Horizontal rails, Chassis plates, Guide rails

- Horizontal rails, page 5.165 to 5.169
- Threaded inserts, perforated strip, insulation strip, page 5.170
- Divider plate / Chassis plate, page 5.172 to 5.173
- Horizontal board mounting / Combined mounting, page 5.174 to 5.175
- Guide rails, page 5.176 to 5.181

NOTE

To obtain a shielded case, all EMC sealings must be fitted (front panel/rear panel - side panel; side panel - cover plate; front panel/rear panel - horizontal rail; horizontal rail - horizontal rail)

REMARK:

Please order the EMC gaskets (textile) separately

Flat front panels, EMC front panels (flat with groove for EMC gasket) or U-shaped (for textile gasket) you will find in chapter 7.

All need accessories (sleeves, collar screws, etc.) you will find as well in chapter 7.

EARTHING KIT

- Forms the GND/earthing connections between side panels, base plate, top cover and rear panel
- Protective GND/earthing connections in accordance with:
 - DIN EN 50178/VDE 0160
 - DIN EN 62368-1/VDE 0805
 - DIN EN 61010-1/VDE 0411 part 1
 - DIN EN 61010-1A2/VDE 0411 part 1/A1
- VDE tested

RatiopacPRO Platform Service Plus

Configurator

Our online chassis configurator supports countless different configuration options.

To configure a chassis, users can:

- Select the basics of the chassis, such as height, width, depth, EMC, and air cooling.
- Choose the design style of the chassis, including the color of the top/bottom/side covers, side frame, rubber strip, and graphics.
- Design the frame of the chassis, including the front frame design and rear frame design.
- Choose the board mechanics of the chassis, such as front panels, mounting front, rear panels, and mounting rear.

Summary

Information

How to start the RatiopacPRO Style Configurator?

Default start configuration:

- Height: 3U
- Width: 84 HP
- Depth: 295.5mm
- Front and Back Protection: Trim
- Top and Bottom Protection: Rubber strips both side
- Cooling: Air-cooling perforations bottom side, without filter

Reference Standard Item Number 24582-341.

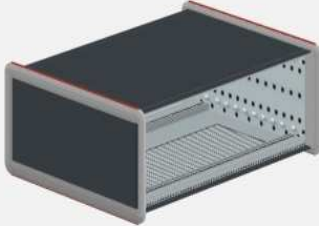

Configuration Options:

With our online configurator, you have the freedom to customize your RatiopacPRO Style case according to your specific requirements. Here are the available configuration options:

[View Options](#)

STEP Files:

Once you've completed your configuration, you'll have the option to download STEP files for further modifications. In case any details are unclear, our team will reach out to you to clarify the next steps.

MODIFICATION

APPLICATION EXAMPLES

RatiopacPRO Style with card cage for 19 boards

RatiopacPRO Style full-width screwless front panel and mounting plate

Easy stackable by removing rubber strips from lower chassis

Custom print and design available on request

Desk-top cases – Introduction

CASE TYPES: DESK-TOP ENCLOSURE/19" CASE

Desk-top enclosure,
RatiopacPRO Style

19" case, comtec

02202004

Desk-top enclosures

Our desk-top cases are used to house PCBs (euroboards) or individual components

The choice is yours:

- RatiopacPRO Style or RatiopacPRO / Pro Air, the universal case with 19" compatible dimensions and high EMC shielding, e.g. for CompactPCI and VME64x applications
- PropacPRO, the robust case with high EMC shielding for 19"-compatible or custom electronics assemblies
- CompacPRO, Desk-top or portable case for unshielded applications

19" cases

Our comtec cases are comparable with small cabinets and are used to house 19" components such as subracks, 19" fan trays or 19" front panels

All desk-top enclosures have a very low weight owing to the materials used and are also suitable for mobile use

APPLICATIONS FOR DESK-TOP ENCLOSURES

The most important user domains for desk-top enclosures are:

- Fitting with euroboards in accordance with IEC 60297

- Fitting with individual electrical or mechanical components, e.g. on mounting plates

ONE PRODUCT PLATFORM AND EXTENSIVE ACCESSORIES

- Practical technology without time-consuming assembly. The modular product platform of these cases allows a wide range of possible uses with only a small number of components.

The intelligent design of all components results in an astonishingly quick and easy assembly of the components.

With our PRO product platform we offer you full compatibility of all individual components and accessories, also with our europacPRO subracks.

Standard desk-top enclosures can also be adapted easily and with little effort for mobile applications.

Desk-top cases – Introduction

FORMS OF DELIVERY FOR DESK-TOP ENCLOSURES

Flat pack delivery to save space

Supplied in space-saving packs. Simply unpack parts and screw together - done.

Depending on the kit chosen the threaded insert, the perforated rail or the EMC gasket is pre-assembled on the horizontal rail.

We offer you three forms of delivery:

- Pre-assembled empty case kit for individual configuration, frame assembled, cladding parts supplied loose.
- Ready assembled cases to your specifications. With our ServicePLUS option you can order ready-assembled cases, with drilled holes and cutouts and individual front panels - if necessary even by express service -.

06100084

- Guide rails form the interface between the mechanics of the case and the electronics assembled (PCBs, plug-in units, frame type plug-in units, drive unit modules, etc.).

Robust snap-in fixings on the plastic rails assure that the components are held securely, even when exposed to vibrations.

Guide rails can also be screwed on.

- Our case product platforms offer standard solutions for achieving electromagnetic compatibility (EMC) and to avoid electrostatic interference (ESD)
- Shielding on the front and rear of the case is effected by front panels with EMC gaskets
- To prevent electrostatic discharge when inserting PCBs, ESD contacts are clipped into the guide rails. These provide a conductive connection between board and case earth/ground
- Test reports are available on our website for download
