

nVent CADDY Single-Arm Cable Pressure Clip

The nVent CADDY Single-Arm Cable Pressure Clip is a sustainable, ready-to-install metal clip allowing for easy cable installation with one hand. This solution securely supports small-sized cable bundles in crowded spaces—such as flush to ceilings, above suspended ceilings. The Single-Arm Pressure Clip's unique design creates an option to combine two single-arm clips within seconds—ultimately doubling the cable capacity per a single fixing point, reducing the number of required stock parts, and saving contractors time on the job. Featuring a low-profile design, this cable pressure clip is a more durable alternative to commonly used plastic solutions and offers an ideal solution for electrical and datacom applications.

FEATURES

- Gangable/Two-in-one solution; two nVent CADDY Single-Arm Cable Pressure Clips can be combined by hand to instantly double the cable capacity per single fixing point
- Compatible with direct fastening and traditional anchoring
- Reusable in case of nail misfire
- More robust and durable than plastic pressure clips
- Rounded edges help prevent cable damage
- Cables are neatly installed, providing a consistent and professional appearance
- Low-profile design allows for installation in tight spaces
- Made of 100% recyclable materials

Material: Steel
Finish: Pregalvanized
