

CBPE0808

EMC connection bottom plate

This bottom plate is used for installing EMI cables into floor standing enclosures and ensures that the EMC performance is maintained.

W	800
D	800
Item no.	CBPE0808

Description: Replaces two parts of the standard three or four piece bottom plates. Due to the hammer head cones, EMI cables can be directly earthed to the bottom plate keeping the "Faraday cage".

Material: 1,5 mm zinc plated steel.

Pack quantity: 2 pieces with EMI gasket and mounting accessories.
