

nVent ERICO PermaGround Compression Connector, Ground Plate

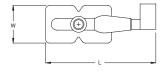

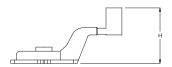

Complies With: UL® 467 Conductor Type: Solid, Stranded Connection Type: Crimp Direct Burial: Yes Material: Copper Number of Crimps: 1 The nVent ERICO PermaGround Compression Connector, Ground Plate, is designed to provide a reliable and efficient grounding solution. This product is for applications that demand high strength and conductivity, ensuring a secure and durable connection. Its cast copper alloy body and pre-filled De-Ox Oxide Inhibitor enhance durability and performance. This design provides versatility and convenience for various grounding applications.

FEATURES

- Cast copper alloy body with underside tapped hole
- Available in two and four-hole NEMA spacing
- Suitable for installation in all weather conditions

Part Number	Main/Run Conductor Range	Die Index	Length L	Width W	Height H	Unit Weight
