

MSHSI600

Horizontal support for busbar support MSHS

This horizontal support, MSHSI, enables mounting of the busbar support, MSHS, in a horizontal position. Horizontal copper connections for incoming or outgoing cables can then be made easily.

H	100
D	600
Item no.	MSHSI600
Description	Horizontal support for MSHS

Description: Support to be mounted horizontally in the enclosure. Is mounted to the internal side panels, MSPS, and the enclosure frame. Makes it possible to mount the MSHS busbar support in depth in a horizontal position. Ideal when there are many incoming/outgoing cables and need a horizontal connection.

Material: 1.5 mm galvanized steel.

Delivery: 2 pcs. of Horizontal support.
