

nVent CADDY Pyramid PEK Wall Mount Support

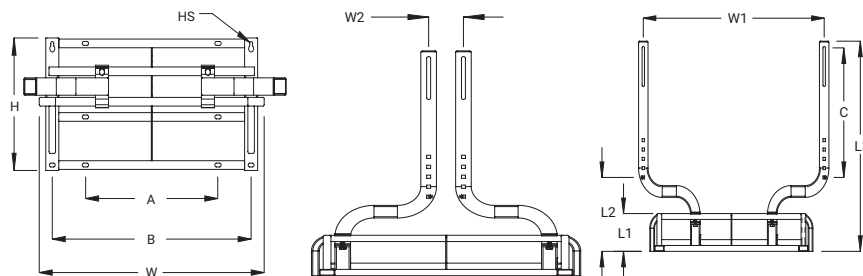

The nVent CADDY Pyramid Wall Mount Equipment Support is a quick and easy solution for supporting HVAC mini-split units on a vertical surface. HVAC installers and mechanical contractors can utilize this cost-effective and simple yet innovative product on equipment installations. The nVent CADDY Pyramid Wall Mount Equipment Support is designed for outdoor use in demanding environments and features hot-dip galvanized construction and hardware.

FEATURES

- Visually appealing when hidden behind HVAC mini splits
- High weight capacity for larger units and greater flexibility
- Adjustable width to fit a range of equipment sizes and outputs
- Straight-forward and simplified installation process

Material: Steel
Finish: Hot-Dip Galvanized
