

PermaGround GTGC Connector

nVent ERICO PermaGround GTGC Clamp is a ground clamp crafted from premium materials and stands out for its versatility and suitability across a wide range of grounding and bonding applications. Tested and approved for use with aluminum, galvanized steel, steel, copper, and more, it accommodates installations such as cable tray, bus bar, rebar, Ufer ground, and lattice towers. Featuring stainless-steel hardware and an internal hex bolt, it delivers superior corrosion resistance and effortless installation.

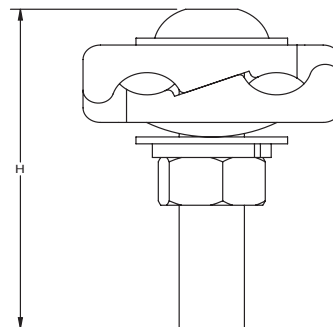

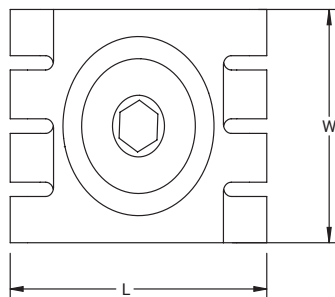

FEATURES

- Manufactured from high strength copper alloy
- Tin plated for corrosion resistance
- Internal hex drive
- Rated for direct burial in earth and concrete

Material: Copper

Part Number	Clamping Capacity	Main/Run Conductor Range	Tap Conductor Range	Height H	Length L	Width W	Unit Weight
