Dear nVent ERICO customer:

The purpose of this letter is to verify that part numbers in the attached list are UL Listed to ANSI/UL 96.

The LPS273CTO is constructed of a similar material, but is not eligible for UL Listing because the ANSI/UL 96 standard does not define requirements for this type of component.

LPC477, LPP899xx, ISOFRP3M, and ISOCAP50 are not eligible for UL Listing because the ANSI/UL standard does not define requirements for this type of product.

For this particular product category, UL's historical practice is not to specify individual part numbers in the online listing directory.

Regards,

A handwritten signature in black ink that reads "Ward Judson". The signature is written in a cursive, flowing style.
