

Fingerskydd för kraftdistribution, MSFG

These plastic finger guards, MSFG, are available off the shelf and provides an IP 2XC protection degree for cabling openings on internal side panels, MSPS, or mounting plates, MSMPN. With these, personnel can work safely within the enclosure, without any risk of contact with live sections.

DESIGN

Beskrivning: Accessory to avoid the access to the live parts through the cable openings in the internal side panels and mounting plates.

Material: ABS.

Leverans: 2 pieces.

The standard accessory is available off the shelf, and provides a IP 2XC protection degree for cable openings while at the same time allowing cables to pass through

The guards ensure that the enclosure complies with IEC 61439, regarding segregation

Maintainers can work safely inside the enclosure, without the risk of touching live sections

The guards can be mounted onto the cable openings on the internal side panels (MSPS) and onto the cable openings on the mounting plate (MSMPN) that have either vertical or horizontal openings
