

Alarm Beacon sensors

Data Solutions

Alarm Beacon sensors are accessories attached to nVent Enlogic iPDUs, which are designed to create a visible alarm notification for an alert condition (or other userdefined situation) in an effort to notify IT personnel quickly and efficiently. They provide information via Web UI, SNMP, CLI/SSH interfaces.

功能

These devices produce visual alerts that direct users' attention to a designated area

The beacon is attached to an iPDU's sensor port 1 or port 2, and it flashes a red LED for 0.5 secs ON/0.5 secs OFF rhythmically until the issue is fixed or warnings are resolved

A standard RJ-45 connector may be used to extend the Alarm Beacon up to a distance of 30.5 meters

技术参数

Table 1/2

物料号	深度	高度	包装数量	插头类型	可拆卸输入电缆	重量
EA9101	300mm	98mm	1	RJ45	否	0.5kg

Table 2/2

物料号	宽度
EA9101	100mm

其他产品详情

Includes: (5) Cable Ties, (1) RJ45 Quick Disconnect Coupler, (5) Adhesive Backed Mounts, (1) 1.8m standard ethernet extension cable

警告

应仅根据 nVent 的产品说明书与培训材料安装并使用 nVent 的产品。可访问 www.nvent.com 获取说明书，或者向您的 nVent 客服代表索取。错误安装、使用不当、滥用或未能完全遵守 nVent 的说明与警告，可能会造成产品故障、财产损失、严重的人身伤害及死亡和/或使得保修服务无效。
