

# **B-Series Horizontal Sleeve, Top Fill**

The top fill horizontal B-Series sleeve is designed to be welded perpendicularly to common grades of structural plates and shapes. Typical applications include welding to base plates, anchor plates and for tying together structural steel members.

Vent holes are added to horizontal sleeves to reduce air entrapment and help ensure proper filling of the sleeve.

# 功能

Designed to connect horizontal reinforcing bars and angular reinforcing bars up to 45 degrees

Machined from weldable grades of steel

Works with saw cut, flame cut and sheared bars

Can be visually inspected after installation

Available with extended sleeve lengths
