

MONI-PT100-EXE-SENSOR RTD Sensor for Hazardous Areas

nVent RAYCHEM MONI-PT100-EXE-SENSOR is a three-wire platinum resistance temperature detector (RTD), typically used with control and monitoring systems when accurate temperature control is required in hazardous areas.

功能

Simple and fast to install: M20 EEx e cable gland is preinstalled

Temperature measuring range: -100 °C to +500 °C

Reliable during long life, 6 year product warranty available, maintenance free

技术参数

Table 1/2

物料号	项目名称	材料	安装	传感器类型	最大测量范围	工作温度
529022-000	PT100-EXE-SENSOR	不锈钢	支架	PT100	500 °C	-50 to 60 °C

Table 2/2

物料号	项目名称	电缆长度	传感器固定电缆
529022-000	PT100-EXE-SENSOR	2 m	是

其他产品详情

The measuring tip on the sensor should not be bent. Ambient operating temperature is applicable on the gland.

警告

应仅根据 nVent 的产品说明书与培训材料安装并使用 nVent 的产品。可访问 www.nvent.com 获取说明书，或者向您的 nVent 客服代表索取。错误安装、使用不当、滥用或未能完全遵守 nVent 的说明与警告，可能会造成产品故障、财产损失、严重的人身伤害及死亡和/或使得保修服务无效。
