

WBT Performance Cable Tray Center Support

The nVent CADDY WBT Performance Tray Center Support is a simple and efficient way to support wire basket trays from a single threaded rod. The offset center tube helps ensure the tray is centered and secured, enhancing both structural integrity and improving project efficiency. Designed for light-duty cable support projects, installation is easy—simply hold the Center Support parallel to the tray, then turn perpendicular until you hear the Center Support lock into place.

Compatible with varying nVent CADDY WBT Performance Cable Tray sizes, the ceiling support is precision-engineered to handle the weight of the trays with confidence. Its pre-punched design simplifies mounting with standard fasteners. Its compatibility with various finishes—including pre-galvanized, zinc electroplate, and powder coat options—adds aesthetic and functional versatility to any project.

功能

Use as a central support when hanging with threaded rod

Designed to be used with the nVent CADDY WBT Performance Cable Tray Splice Kit

Supported with 3/8 or 1/2 in threaded rod
