

# Internal Side Panels For Power Distribution, MSPS

The galvanised steel internal side panels, MSPS, segregate vertical sections and allow for mounting of busbar supports, MSHS, as well as other accessories. It is a flexible solution both for fix and plug in systems and allows for meeting form 4 segregation according to IEC 61439.

## 功能

Description: Internal side panels to build up sections as from the enclosure frame. Frame hole pattern is needed in front, rear, top and bottom.

Material: 1.5 mm galvanized steel.

Delivery: 1 piece with mounting material.

The side panels segregate vertical sections, allowing customer's to mount main busbar supports (MSHS) and other accessories

A flexible solution for both fix and plug-in systems

The side panels allow customers to build up power distribution configurations to meet form 4 segregation according to IEC 61439

Hole patterns are required in the top, bottom, front and rear of the enclosure, in order to mount the internal side panels
