

# Rear Cover Plate For Plug-In Sections For Power Distribution, MSSB

These vertical profiles and rear cover, MSSB, form the basis for plug-in sections. This accessory is available off the shelf and is tested according to IEC 61439. The cover prevents staff from coming into contact with the busbar and the plug in system allows for the compartment to be extracted without turning off the power.

## 功能

Description: Rear cover plate to separate the plug-in sections from the plug-in busbars. It includes the profiles in which the rear plate is fixed, and in which the busbar holders must be fixed too.

Material: 3 mm reinforced polycarbonate and 2 mm galvanised steel.

Delivery: 1 rear panel, 2 vertical profiles to fix the back plate and busbar supports and mounting material.

Rear cover plate to separate the plug-in sections from the plug-in busbars

It includes the profiles in which the rear plate is fixed, and in which the busbar holders must be fixed too

As the cover allows the compartment to be extracted, unnecessary downtime is avoided as the power can remain on, while certain procedures are carried out

In order to mount this accessory, internal side panels (MSPS) are required

1 rear panel, 2 vertical profiles to fix the back plate and busbar supports and mounting material
